## NEW HOME CARE AGENCY OF THE YEAR

Gentle Hands Home Support Limited

Established in 2024, Gentle Hands Home Support is dedicated to delivering reliable and compassionate home support services from its base in Nottingham. Through its new and expertly designed support model, the agency focuses on providing meaningful, non-regulated assistance for adults who require personal care and benefit greatly from companionship, practical help and genuine human connection. Founded and led by Jason Watmore, the service is intentionally small, currently supporting clients through a close-knit team ensuring the kind of continuity and familiarity that builds strong, reliable relationships with carers. The service supports adults aged 18 upwards who need additional help to live independently at home.

The judges were particularly impressed by the range of flexible, hourly support options available to clients from Gentle Hands Home Support. These include companionship and befriending, shopping support, light housekeeping, medication prompts, respite for families and encouragement to stay connected with the wider community. Equal importance is placed on emotional wellbeing, social interaction and maintaining meaningful connections with family members, neighbours and even pets, underscoring the crucial role these relationships play in the overall quality of life for individuals.

*Gentle Hands Home Support provides compassionate companionship and practical help, enabling adults to live independently, safely and connected at home.*
